2019-2020 Winter Service Program

**TORO Reelmasters**

**Maintenance & Service Performed**
Replace Air Filter, Inspect Dust Cup and Baffle
Lubricate All Grease Fittings
Adjust Fan and Alternator Belt Tensions
Inspect Cooling System Hoses
Inspect all Belts
Test Coolant, add as required
Change Engine Oil and Filter
Replace Fuel/Water Separator Filter
Replace Hydraulic Filter
Torque Wheel Lug Nuts
Service Battery, Check Connections and Clean
Adjust Engine RPM (idle and full throttle)
Adjust Traction Belt Tension

**Cutting Units:**
Sharpen Reels/Replace Bedknives
Parallel Cutting Units
Inspect Spider Coupling for Wear
Check Reel Bearing Preload Adjustment
Set Height of Cut

*Additional services depending on model...*

---

**2000/3000 Series**

Plus:
Inspect Hydraulic Hoses
Inspect Traction Linkage Movement
Test Hydraulic Performance and Functions

---

**4000 Series**

Plus:
Test Hydraulic Performance and Functions
Drain Water from Hyd. Tank
Drain Water from Fuel Tank
Replace Electric Fuel Pump Filter (if equipped)
Inspect Traction Linkage Movement
Adjust Rear Wheel Toe-In
Rear Axle Service:
- Pack Rear Wheel Bearings and Adjust (2WD)
- Change Rear Axle Lubricant (4WD)
Check Backlap Function
Lubricate Reel Control Valve Grease Fitting
Lubricate Reel Speed Control Valve with Oil
Inspect Cutting Unit Reel Drive Belts
Replace Hydraulic Tank Breather

---

**5000/5010 Series**

Plus:
Test Hydraulic Performance and Functions
Drain Water from Hyd. Tank
Drain Water from Fuel Tank
Replace Electric Fuel Pump Filter (if equipped)
Inspect Traction Linkage Movement
Adjust Rear Wheel Toe-In
Rear Axle Service:
- Pack Rear Wheel Bearings and Adjust (2WD)
- Change Rear Axle Lubricant (4WD)
Check Backlap Function
Check Front Planetary Gear Lube

---

2019-2020 Winter Service Program

TORO Groundsmasters

**Maintenance & Service Performed**

- Service Battery/Cable Connections/Clean Terminals
- Lubricate All Grease Fittings
- Change Engine Oil & Filter
- Inspect Air Filter, Dust Cup, and Baffle
- Clean the Radiator with Compressed Air
- Clean the Mower Deck
- Change the Mower Deck Gear Box Oil
- Check the Tire Pressure
- Replace Fuel Filter/Water Separator
- Check the Condition of the Blade Drive Belts
- Adjust Fan and Alternator Belt Tension
- Inspect Cooling System Hoses
- Test Coolant, add as required
- Test Hydraulic Performance and Functions
- Replace Hydraulic Filter
- Torque Wheel Lug Nuts
- Inspect Fuel Lines and Connections (diesel only)
- Replace Cutter Blades (sharpening old additional)

*Additional services depending on model...

### 300/3280 Series

- Plus:
  - Adjust & Lubricate Brake Cables
  - Clean Under Cutting Unit Belt Covers
  - Adjust Cutting Unit Drive Belt
  - Adjust PTO Belt Tension
  - Test Engine Performance
  - Replace Transmission Oil Filter
  - Adjust Rear Wheel Toe-In and Steering Linkage
  - Replace Water Separator Filter
  - Pack Rear Wheel Bearings and Adjust (2WD)
  - Change Rear Axle Lubricant (4WD)
  - Check Engine RPM high and low
  - Check PTO Belt
  - Check PTO Clutch Adjustment

### 360 Series

- Plus:
  - Clean the Air Conditioning Screen
  - Check the Alternator Belt Tension
  - Check the Air Conditioning Compressor Belt Tension (cab models)
  - Clean the Cab Air Filters
  - Clean the Air Conditioning Coil
  - Replace the Fuel Filter Canister
  - Check and Align 4 Wheel Steering
  - Replace Hydraulic Oil and Filter

### 4000/4100 Series

- Plus:
  - Check the Engine RPM (at idle & full throttle)
  - Change the Front Planetary Gear Lube
  - Change the Rear Axle Oil Level
  - Inspect the Cutting Unit Castor Wheel
  - Check the Rear Wheel Toe-In

**Tier 4 Units:**

- Update YANMAR and TORO programs
- Check DPF Load and Regen if needed
2019-2020 Winter Service Program

**TORO Groundsmasters**

## TORO Greens Mowers

### 800/1000/1600 Series
- Replace Air Cleaner Filter
- Service Air Filter Foam Element
- Check for Loose Fasteners
- Lubricate All Grease Fittings
- Change Engine Oil
- Adjust Traction Drive Belts
- Clean Fuel Filter and Bowl
- Change Transmission Oil
- Replace Spark Plug
- Adjust the Reel Drive

### Flex 21 Series
- Sharpen Reel
- Replace and Sharpen Bedknife
- Set Height of Cut

### Triplex/Triflex
- Service Battery, Check Cable Connections & Clean
- Service Air Filter Pre-Cleaner
- Replace Air Filter Element
- Lubricate All Grease Fittings
- Change Engine Oil
- Replace Engine Oil Filter
- Torque Wheel Lug Nuts
- Adjust Steering Cable (GR300/3050)
- Adjust Traction Linkage
- Replace Spark Plug(s)
- Replace Fuel Filter
- Replace Hydraulic Filter
- Test Hydraulic Performance and Functions
- Adjust Engine RPM (idle and full throttle)
- Check Back Lap Functions

### Cutting Units:
- Check Reel Bearing Preload Adjustment
- Sharpen Reels
- Replace and Sharpen Bedknives
- Parallel Cutting Units
- Set Height of Cut

---

### Maintenance & Service Performed
- Drain & Clean Gear Case
- Replace Case Cover Seals
- Replace Case Cover Gaskets
- Adjust Reel Bearings
- Adjust Wheel Bearings
- Adjust Roller Bearings
- Clean & Lube Rod Ends
- Clean & Lube Disengagement Levers
- Adjust Tire Pressure
- Replace Gear Case Lube
- Sharpen Reel & Bedknife
- Adjust Reel to Bedknife
- Grease & Lube all Fittings

Golf Irrigation Winter Service Specials

Weather Station Services, Toro and Non-Toro Systems: $500.00
- Take a relative humidity reading and replace desiccant as needed.
- Inspect pyranometer for contamination.
- Clean out rain gauge of debris and level.
- Calibrate the rain gauge.
- Check filter of the temperature/humidity sensor.
- Clean temperature/humidity sensor.
- Calibrate the temperature/humidity probe.
- Clean Gill radiation shield.
- Inspect anemometer bearings.
- Inspect wind vane bearings.
- Test battery for proper volts.
- Clean solar array
- Inspect all wires for cracking and deterioration.
- Check for proper communication to central computer.

Earth Grounding Test:
$15.00 per location
- Ohm each location as per the manufacturer’s specifications. Price assumes customer has located all ground rods in advance.
- Product report showing results of tests and recommendations for improvement if required.

Satellite Preventive Maintenance:
$80.00 per satellite
- Clean satellite of all pests and debris
- Inspect for damaged parts
- Test for proper grounding as per manufacturer’s specs
- Check all wire connections and condition of wires.
- Check communication strength. Confirm that satellite communicates with central. Listen to signal to minimize interference.
- Inspect all fuses to confirm proper amp rating and size.
- Confirm Timing Mechanism functions
- Inspect all solenoid wires for proper connection and condition.
- Ohm each station to verify 24 volt output and give written form to superintendent.

To schedule any of these services please contact:
Darren Graf
Service Manager

Proper Winterization
Proper Winterization of your Irrigation System is critical to preventing damage to your system over the winter. Improper blow-out procedures such as excessive pressure or repeating the blow-out procedure can cause damage to your sprinkler heads. Toro has published detailed recommendations for both pressurization and winterization of your system. This document can be found on our web site, www.grasslandcorp.com.

LTC to VP Upgrade Kit Now Available
LTC+ Users can now economically upgrade to a state-of-the-art VP.

- Easily upgrades your Network LTC® Plus satellite to a state-of-the-art Network VP® satellite
- Station based flow management simplifies programming and reduces water window
- Faster downloads—seconds per satellite
- Easier to program—intuitive user interface

Network LTC Plus Upgrade Kit consists of Network VP faceplate, power distribution board, cable and hardware. Contact us for a quote on materials and installation.

Board Repair
Late Fall and Winter, when your system is out of service, is a great time to send in any damaged face plates or boards from your field satellites for replacement or repair. Refurbished components are available from Toro at a fraction of the price of new with an exchange.

Parts and Operations Manuals
For your convenience Grassland has posted the owner’s manuals for many popular Golf and Non-Golf Irrigation Products on our web site. You will also find a complete Toro Residential Commercial & Golf Irrigation Parts Book that is available to download. If you do not have access to the internet and need a copy of any manual or a complete parts book, just contact us. We would be happy to send you copies free of charge.
See the latest selection of Pre-Owned Equipment at www.grasslandcorp.com

Grassland is pleased that we can now offer a good selection of Pre-Owned Toro equipment for turf professionals on a budget. These units can be offered with a factory supported warranty, and financing is available. Selection varies and changes over time. If you are in the market for quality Pre-Owned equipment contact your Grassland representative.

Even if we do not have what you are looking for we may be able to locate a unit to meet your needs. Why purchase from a third party broker when you can buy quality equipment from people who can offer you a Toro Factory Warranty and outstanding local service and parts support.
